

Exciting STEM Activities for Cub Scouts! **Old North State Council**

The Old North State Council's will hold "Exciting STEM Activities for Cub Scouts!" on **August 19, 2017** from 2:00-4:30 PM at the Old North State Council office! This training is an opportunity for adult leaders to learn how to prepare for and lead awesome activities in their Cub Scout den, pack, or district Cub Scout events. Participants will learn about several activities such as micrometeorites, catapults, Bristle Bots, paper rockets, and more while also learning how these activities tie into Cub Scout Adventures and Nova Awards!

Participants will only need to bring excitement about getting your Scouts involved in S.T.E.M. and a little energy because we will be doing several fun activities! All activities will include handouts for participants to take home so they can be easily implemented in the Cub Scout pack or activity.

Participant Name: _____ Unit Type and Number: _____

Participant Email: _____

Please check the appropriate registration fee below and submit the form and fee to the Old North State Council by **August 16, 2017**.
